WEST LIBERTY, MORGAN COUNTY, KENTUCKY, THURSDAY, DECEMBER 1, 1921.

WHOLE NUMBER 593.

FROM a silver-spoon and soft-mattress existence, Stanford Broughton suddenly is confronted with the alternative of looking for a job or, another kind of quest, try and locate a mysterious legacy left him by an eccentric grandfather.

He does not know the character of the property, but the grandfather's directions say that it is somewhere between the 105th and 110th degrees of longitude west from Greenwich, and the 35th and 40th degrees north latitude.

When he finds it he will be able to identify it by the presence of a girl with brown hair and blue eyes, a small mole on her left shoulder, a piebald horse and a dog with a split face—half black and half white. He is game and he starts to look for the combination. The troubles he has in locating it and the adventures and dangers through which he passes in securing possession of the property, also the romantic incidents in which the girl is a figure, make up this very fascinating narrative.

It is Mr. Lynde's habit to tell stories like this, and there are readers in multitudes who would be sorry to have him depart from the custom.

NOTICE TO TAXPAYERS.

My term of office as sheriff expires the first of January and I do not want to have to devote a greater part of another year in winding up the business of my office. I have been as lenient and accommodating to you as I could be with safety and I know that you have appreciated it sufficiently to cause you to assist me in winding up my official affairs quickly.

I want to get all the taxes due the county and state collected before the end of the year and I hope that each of you who have not paid your taxes will come forward and settle at once. I or one of my deputies will see each of you soon, so be ready to pay your taxes.

Yours very truly,
C. P. HENRY,
Sheriff Morgan County.

G. W. Leslie Will Sell Popular Detroit Car in This Territory
The prompt manner in which Dodge Brothers assumed one of the foremost positions in the automobile industry is regarded as a striking testimony to the high regard in which their name was held by the public.

Mr. Leslie will maintain their name was held by the public in the automobile industry. His territory includes Morgan and Magoffin counties. The remarkable popularity of the car has caused other cars, establishing a reputation automobile men all over the country for thoroughness and mechanical skill to clamor for sales privileges. This reputation has been more than Dodge Brothers policy of quality in upheld. It is said of Dodge Brothers selling methods, as well as quality in the car, requires a painstaking investigation in every instance before a selection is made. In Mr. Leslie Dodge Brothers have a dealer on whom they believe they may rely for both promptness and fair business methods.

The prompt manner in which Dodge Brothers assumed one of the foremost positions in the automobile industry is regarded as a striking testimony to the high regard in which their name was held by the public. Even before they marketed a motor car bearing their name. Prior to that time Dodge Brothers had built the vi-

The Ten Commandments for Your Home Town

TO INTERPRET FOR OUR OWN HOME TOWN THE COMMAND "THOU SHALT LOVE THY NEIGHBOR AS THYSELF"

(E. Fred Eastman, in Sanford Herald)

I. Thou shalt love thy home town above all other towns. Thou shalt be loyal to her people and to her institutions.

II. Thou shalt guard thy home town from the hosts of evil that would invade and destroy her soul. Thou shalt keep the good name of thy home town clean and without stain or blemish.

III. Thou shalt elect as thy public servants in political office men of strong character, eager to conserve the best interests of thy people. And when thou hast elected such men thou shalt stand by, and encourage them, for their temptations are many and their burdens are not light.

IV. Thou shalt exalt thy public school and honor it all the days of thy life with the best of teachers, buildings, and equipment, for the school is the cradle of the future. Thy children are here and they shall be the citizens of tomorrow. No training is too good for them and no preparation superfluous.

V. Thou shalt defend the health of thy home town from the death that lurks in marshes, swamps, and heaps of filth. Thou shalt exterminate the fly and mosquito, for they carry typhoid and malaria. The tubercle bacillus shall drive before thee with the sun and fresh air as thy allies.

VI. Thou shalt build good roads and keep them good. For by her roads is a town known for good or ill. Eternal watchfulness shall be thy motto, that thy roads may not ravel nor thy supervisor forget thee.

VII. Thou shalt keep thy home town beautiful. The hills, the trees, the waters that Nature has given her thou shalt preserve in sacred trust. No hovel shalt thou permit to disfigure them. Thou shalt keep thy homes and thy door yards clean and cheerful. Thy waters shalt thou purify that they may bring thee life and strength. The future of thy town shalt thou plan with care and diligence, that thy growth be not haphazard, but full thought and loving care as the plans of a mother-plans for the growth of her child.

VIII. Thou shalt honor thy community institutions. Thou shalt work together with thy neighbors with all thy heart and strength and mind. Thou shalt work together in thy organizations, clubs, and Chautauqua for the common welfare. Thy shalt learn thy leaders to obey. Thou shalt serve on committees where thou art put and not intrude on committees where thou art not put. Thou shalt know each other better, thy work shall prosper, and thy friendship shall multiply.

IX. Thou shalt be a good neighbor to all who live in thy town whether they be rich or poor. Thou shalt speak ill of none and good of many. Thou shalt be a friend to strangers and visit the sick in their affliction.

X. Thou shalt go to church for the honor of thy home town and for thine own good. Thou shalt offer consider thyself too wise, too busy, too bad nor too good, to spend an hour or two on Sunday with thy neighbors in worship of God. Thy shalt not send thy children to church. Thou shalt bring them there. Thou shalt offer thyself to thy spiritual leader for the service of God and thy community. So shall ye win many battles together.

the fact that they have a staff of several hundred inspectors who do nothing but check up on workmanship in the various processes of manufacture. In addition there are several large departments devoted entirely to similar work, such as the physical and chemical laboratories where raw and finished materials are subjected to tests so thorough as to leave no doubt of the quality.

It is significant that the first Dodge Brothers Motor Car ever built was made up exactly as a car is made in the regular line of production. Ordinarily the "experimental job," as the first car is known, is built of castings because of the great time and expense involved in preparing dies for forgings. Dodge Brothers, however, decided that their experimental car should be like the car they expected to build, in every detail, so that neither they nor the public might be "fooled." So they spent almost a year in making these dies and preparing other wise for a completely manufactured car. As a result, when the car was built they knew what they had and what they and the public might expect of their products. As a further result the "experimental job" has stood up to a total of more than 150,000 miles, traveling year after year under all sorts of road conditions. This is but an illustration of the many things unique in the history of Dodge Brothers as manufacturers.

Public approval of their principles of thoroughness is seen in the rapid expansion of Dodge Brothers Works made necessary by public demand. In December, 1914, it was a plant of less than 20 acres. Today Dodge Brothers Works covers 100 acres of floor space.—Adv.

STATEMENT to GAS CONSUMERS.

The Caskey No. 2 gas well, which has been supplying the consumers of gas in West Liberty for the past few years, has not diminished in volume, as we can tell. In addition we have been and are working on the Caskey No. 1, (which was maliciously plugged with the No. 2 well and the McClain well in 1917) and have done enough work on this well to know that the well is now making gas in considerable volume and to be reasonably certain that the field has not been injured and that the well will produce as much gas in volume as it formerly did. We have also given a contract for the cleaning of the McClain gas well and the drilling of new wells in the field. We had planned to turn this gas into our lines for the benefit and convenience of consumers of gas in West Liberty, and in order to insure a uniform pressure and an adequate supply at all times, had planned and actually started to install a compressor plant in the field on Elk Fork.

No matter how much gas we have in the field, it will be impossible for us to get it into the town on account of the condition of the service lines laid in the streets of West Liberty. An examination of the condition of these service lines shows that a number of the main lines have been broken, part of them removed and great portions of the lines uncovered and exposed to atmospheric conditions. This damage to the lines has been caused by the constant change of grade of the streets during the past few years. It will probably require from forty to sixty days to get the necessary material to dig the ditches, lower the lines and cover them, which is necessary before a uniform supply of gas can be furnished.

We make this statement of conditions in order that the citizens of West Liberty can make such arrangements for fuel as they deem necessary during the winter months. We are sorry that it has been necessary to make this statement but it has been caused by conditions which are beyond our control.

The Courier joins their host of friends in wishing them a happy and prosperous journey through life.

A man arraigned in Jeffersonville on a charge of bigamy claimed to have attended a wake, meeting a woman there who took him to her home and displayed seven quarts of whisky, which he assimilated such sufficiently that he suffered amnesia, which lasted until next day, when he awoke lying alongside the woman, who coyly slipped the news to him that she was his latest bride.

But the actual work of surveying has been and this winter will see the completion of the work and the work of construction will begin in the early spring.

THE STEINACH CURE.

Dr. Steinach, of Vienna, has given to the world that he has discovered what Prince de Leon vainly sought—the fountain of youth. For some time the media have claimed that old age can be stood off by the substitution of monkey glands, but Dr. Steinach now comes forward with the new idea that nature holds in reserve a source of youth in each person.

The Steinach procedure, according to the Louisville Times, is to make a slight incision in the skin, over the lower part of the abdomen and to make a holding for a canal draining a gland which is said to be a reservoir for the maintenance of physical and mental power. A New York physician says that there is something in the experiment, and deprecating a man's own machinery will doubtless prove more attractive than putting in new.

Still, we prefer to let some of the extremely old men around here try the vasal-ligature remedy before putting for extreme youth again.

Wonder if the Limitation of Armament Conference will include a reduction of the powder the ladies use on their faces.

Seven men were sentenced to imprisonment in Breath it in one day. Still, it will take a long time at that rate for the sentencing to equal the killings.

Scientists have discovered—so they say—that oysters are subject to the “flu” and other diseases. We no longer envy the oyster his peaceful life with nothing but water to drink when his head is aching from flu.

It was heartless in the Indiana officials to break up the “love nest” of Willard Long at New Albany. Long thinks that so long as he and his two wives were getting along so amicably it was nobody's business but their own.

If the Limitation of Armament Conference decides to make the agreement between the nations a “Gentlemen's Agreement,” all the excuses that any nation will need to break it will be to say that the other nations are not gentlemen.

It is pretty hard to keep from talking “hard times” now, but there is no doubt that much of the business depression can be over come by optimistic thinking. The business of the United States will get better, and the spirit of optimism will help more than anything else.

We do not know whether or not the State has entered upon the task of maintaining the road from here to Index, but it is getting in bad shape since the fall rains set in. If there is a man in charge he ought to drag it after every rain so that the water can run off instead of soaking in. The ruts hold the water, a smooth surface permits it to run off.

A suggestion of ballot reform will be made at the next General Assembly. The plan is to do away with party emblems. There may be some merit in the suggestions, but it is hard to tell how they will work out. In the non-partisan school elections there are no devices and politics are not supposed to enter into the elections of the boards, yet where one party is in the majority in a county that party usually elects a board that elects a Superintendent of that party. So long as we have no politics it is hard to divorce party politics from elections.

The reform that the Courier would like to see would be the abolition of the Australian ballot system and let all voting be public and a matter of record to be kept afterward. Under the secret ballot political corruption has grown and vote selling has multiplied.

The old way was best.

Every year the problem of gas arises in West Liberty. The gas company is cleaning out some old wells and it looks as though we would have an abundance of gas, but now there is a controversy as to the damage of its pipes by the repairing of the streets. In the street repairing some of the pipes have been uncovered and torn up and while the controversy goes on the people are without gas. To just an ordinary layman it looks as though there ought to be something done that will secure an adequate supply of gas. The board of trustees ought to fulfil its franchise obligations and then require the gas company to do the same. If under favorable conditions the company can not furnish the gas for the people the board of trustees ought to try to make arrangements with some company that will. The Courier takes no position as to which of the parties are right, but it holds that the people are entitled to an adequate supply of gas from some source if it can secure it, and the people are tired of the dilatory methods used and would like to see some way out of the matter.

OUR COUNTY HIGH SCHOOL.

There should be an awakening of the people of Morgan county in regard to the needs of the County High School. There should be a realization that the Morgan County High School is the one means by which the boys and girls of the county may obtain the necessary qualification for teaching, and that something will have to be done if this school meets the needs of the county. The faculty is all right and those who attend have the advantages that can be had anywhere, but there is not sufficient accommodation for the pupils who want to attend.

The Courier has been persistently calling attention to this fact. It has set forth the lack of room in the class room, the lack of dormitory accommodations. Unless there are more buildings erected it will not be long long until pupils in the county can not find accommodations at the school and will have to go to other schools at a much greater expense or be deprived of the training that is the right of every child in the county.

Business of all kinds is now demanding high school preparation, and without it a boy or girl is illy prepared to compete in the business world today.

It is not a matter of choice any more. It is a plain necessity and the parents owe it to their children to prepare them for the battle of life. You have no right to deprive your child of the proper mental equipment for success in life.

If we do our duty toward our children we must provide ample educational facilities for them.

THE DISARMAMENT CONFERENCE.

While great hopes are being held out that much will result from the conference of nations at Washington to decide upon the limitation of arms, yet it is plainly apparent that every thing is up in the air so far. When

the discussion was on the general principle of limitation of arms and a reduction of the navy all looked well, but when the details began to be discussed there was seen to be a very wide difference of opinion, and it is doubtful if any permanent agreement will be reached. And even if the agreement is reached, it will not be binding. The American delegates are even afraid that the element in the Senate that rejected the League of Nations will not ratify an agreement in the way of a treaty, and the plan now seems to be a mere “gentlemen's agreement,” an oral agreement between the nations.

For two years the business of the world has been paralyzed and Europe unable to get back to a productive basis, unable to pay its debts or furnish a market for our products because a gang of irreconcilables in the Senate chose to throw civilization back a hundred years in order to humiliate Woodrow Wilson.

The fact that it seemed necessary to call a conference of the nations to discuss disarmament is proof sufficient that the United States should have entered into the League of Nations—ought yet to do so. It does not require a wise man to know that an agreement by a treaty of all nations, with provisions to enforce the agreement, would have been better than a mere oral agreement between nations without any power to compel its observance. Suppose that Japan for instance, refuses to agree to the limitation of its navy? What will the other nations do about it? Or, suppose she agrees to it and does not live up to her agreement, what then? k

KENTUCKY TURF'S GREAT PROGRESS

In the Last Three Years the Kentucky Jockey Club Has Distributed in Stakes and Purses \$3,479,655.00.

THOROUGHBRED YEARLINGS INCREASE IN VALUE.

[From the Lexington (Ky.) Thoroughbred Horse.]

IT will be of particular interest to the breeders of thoroughbreds in this State, and to those persons everywhere who own and race horses to review the situation in Kentucky and to show the progress that has been made in the last seventeen years. As the value of stallions and broodmares depends on the quality of their produce and the ability of that produce to win stakes and purses, a comparison of the present prosperous condition of the turf with other days when prices were low and breeders and turfmen everywhere had cause for complaint will be of value at this time.

Never in the history of the turf have thoroughbreds been so valuable as they are right now. The best barometer is the public market and the auction sales at Saratoga last August showed that, despite the general prostration of business, well bred horses with individuality brought the best average in many years. The highest price of the season at Saratoga was \$21,000 for the brother to The Porter. Several others were sold for more than \$10,000 each and a number of likely looking colts and fillies brought from \$5,000 to \$7,000 each. The market generally was steady and unspotted, which is to say it was stable.

The prices were based on the probable earning power of these colts and fillies, and if organizations like the Kentucky Jockey Club did not offer generous stakes and purses, it would not be possible for breeders to market their yearlings advantageously. Neither would it have been possible for S. C. Hildreth to have paid \$125,000 for the brother to Man o' War, \$150,000 for Incense, or for Benjamin Black to have paid on a \$75,000 valuation for the mighty Morvich, or for a number of others to have paid the large prices given for horses with capacity to hold their own in contests on the turf.

Fifteen years ago it was no uncommon thing in Kentucky for turfmen to run their horses for \$400 purses. This year the Kentucky Jockey Club distributed in stakes and purses an average of \$12,000 a day to the turfmen; no purse at Churchill Downs or Latonia was under \$1,300, and many of them reaching \$1,400 and \$1,500 each. In 1905 the Kentucky Derby was worth \$4,850. Since the existence of the Kentucky Jockey Club, which was organized three years ago, the Kentucky Derby was worth in 1919 over \$20,000; in 1920 over \$30,000, and in 1921 the Kentucky Jockey Club added \$50,000 to the royal stake. All the other stakes on the roster of the Kentucky Jockey Club at Lexington, Churchill Downs and Latonia have been proportionately increased.

In the three years of its existence the Kentucky Jockey Club has distributed to the turfmen \$3,479,665, the greater part of which sum was paid to citizens of Kentucky who own and breed race horses.

Since the Kentucky Legislature in 1906 created the State Racing Commission, we have had cleaner and better racing than ever before, and since the organization of the Kentucky Jockey Club we have had an era of prosperity for breeders and turfmen unequalled in the turf history of this State.

Here are the official figures for the past seventeen years, from 1905 to 1921, inclusive:

1905—	Total number of racing days . . . 155	Total amount of money distributed . . . \$420,350.00	The highest purse given was \$750 and the lowest \$300, and the average was a little more than \$400 each.
1906—	Total number of racing days . . . 174	Total amount of money distributed . . . \$517,800.00	Purses averaged about \$450 each.
1907—	Total number of racing days . . . 110	Total amount of money distributed . . . \$362,350.00	Purses averaged about \$450 each.
1908—	Total number of racing days . . . 111	Total amount of money distributed . . . \$299,400.00	Purses averaged about \$450 each.
1909—	Total number of racing days . . . 112	Total amount of money distributed . . . \$240,900.00	Purses averaged about \$450 each, although this year purses at Lexington ran as low as \$250.
1910—	Total number of racing days . . . 112	Total amount of money distributed . . . \$316,550.00	Lexington purses ran as low as \$300, and the average for the whole circuit was \$450 each.
1911—	Total number of racing days . . . 110	Total amount of money distributed . . . \$398,350.00	Purses averaged about \$500 each.
1912—	Total number of racing days . . . 109	Total amount of money distributed . . . \$347,200.00	Purses averaged about \$500 each.
1913—	Total number of racing days . . . 108	Total amount of money distributed . . . \$444,900.00	Purses averaged over \$500 each.
1914—	Total number of racing days . . . 104	Total amount of money distributed . . . \$439,200.00	Purses averaged over \$500 each.
1915—	Total number of racing days . . . 102	Total amount of money distributed . . . \$481,460.00	Purses averaged over \$500 each.
1916—	Total number of racing days . . . 107	Total amount of money distributed . . . \$589,400.00	Purses averaged about \$650 each.
1917—	Total number of racing days . . . 104	Total amount of money distributed . . . \$653,150.00	Purses averaged about \$750 each.
1918—	Total number of racing days . . . 101	Total amount of money distributed . . . \$652,050.00	Purses averaged about \$850 each; Latonia, Douglas Park and Churchill Downs increasing many of the overnight purses \$1,000 each.
1919—	Total number of racing days . . . 98	Total amount of money distributed . . . \$997,190.00	The Kentucky Jockey Club was organized this year and took over the Lexington, Churchill Downs and Latonia race tracks. The average daily amount given in stakes and purses at all tracks was \$10,175, and the seven races each day averaged \$1,483 each.

The Girl a Horse and a Dog

By FRANCIS LYNDE

THE clever author of “The Wreckers” and other great railroad tales, has turned his attention to a different theme. It is of the West, matchless in its expression of the out-of-doors, with charming human types and an absorbing and fascinating wealth of incident. The search for a lost mine is interwoven with a most delightful love story. Watch for it as a serial in this publication. If not a subscriber, become one now.

You Must Not Miss It!

BEGINS NEXT WEEK.

To Our Morgan county Friends:
Pikeville, Ky., Nov. 18, 1921.
Licking Valley Courier,
West Liberty, Ky.
Gentlemen:

I wish to say to our dear old Morgan county friends and relatives that we are just back from the Queen City, where we were fortunate enough to buy some of the most remarkable bargains, as we found the jobbers anxious to sell for cash. So we have the most up-to-date line of holiday goods. We have wonderful bargains in diamond rings from \$8.00 up; diamond lavalliers from \$4.50 up; platinum, white gold and yellow gold wedding rings; diamond bracelets fit for a queen; ivory clocks and goods of all kinds; Community plate and Rogers' 1847 silverware at new prices; bracelet watches and all kinds of watches from 7 Jewel Elgins to 23 Jewel Howards; solid gold and gold filled watch chains; fine spectacles to suit any eye; Baldwin pianos, Columbia graphophones and musical instruments of all kinds; player piano music and phonograph records and sheet music at cost; emblem charms and pins for all lodges.

We guarantee a saving of from 15 to 35 per cent on any purchase. Mail orders given special attention. Goods sent for inspection to any reliable person.

Hoping by honorable efforts to merit at least a part of your patronage, we are,
Yours for business and to please,
THE J. T. GYEDON MUSIC AND JEWELRY CO.
The Buyer's Friend, Pikeville, Ky.

FRANCIS LYNDE

Francis Lynde is another example of “When a Man Comes to Himself,” the title of an excellent little book which ex-President Wilson wrote for young men some years ago.

He was born at Lewiston, N. Y., in 1856, went to Denver as a young man, got him a job on a railroad, married a nice young woman and sailed along in obscurity until he was thirty-seven years old.

Then he woke up and took his pen in hand. What he had to say didn't stir the nation appreciably during the first five years. In 1898 he wrote three novels within 12 months, each one of which was a ten-strike. After that it was easy.

Mr. Lynde has romanticized the railroads of the West and written many other fascinating tales of that region. We have been fortunate enough to secure his late story, “The Girl, a Horse and a Dog,” as interesting as its title implies, for serial reproduction in this publication. You must read it!

ODDS AND ENDS.

Looking over the registration in the city of Louisville you will find that it shows that 27,769 white men and 28,185 white women registered as Democrats, and that 17,348 white men and 15,778 white women registered as Republicans, or, a total of 55,954 white Democrats and 33,118 white Republicans. This gives the Democrats a majority of 22,836 of the white voters of that city. The city gave a Republican majority of several thousands at the last election. Comment is unnecessary.

A few weeks ago an irate subscriber wrote that when his wife opened the Courier she found a large spider in it and was very badly scared. We are sorry that such a thing happened, but it easily explained. When we deposited the papers in the post office here the spider crept in the bundle to look over the pages to see which of the merchants did not advertise. He knew that if he could find one that did not advertise he could spin his web in that store with-out fear of being disturbed.

The Disarmament Conference seems to be getting ready to agree on many generalities, but the test will come when they get to working out the details. France wants to retain a big army and Japan wants a bigger proportion of ships, and China wants to be protected from Japan. And while the question of the debts due the United States from the other nations has not been discussed it is a thing that may cause much disagreement. How much more simple would it have been to have entered the League of Nations and had all these matters settled.

One trouble that has arisen is the Senate will not do anything to enact the agreement of the nations binding. If an agreement is reached it can not be put in the form of a treaty and will have to be a "gentlemen's agreement." Just merely an oral agreement between the nations. Every move that is made, everything that happens more and more emphasizes the fact that we made the greatest national blunder of our history in rejecting the covenant of the league of nations.

The irreconcilables of the Senate are so bitter that the president is afraid to risk putting the agreement of the present conference in the form of a treaty for fear that the Senate will reject it. The Senate, in order to humiliate Woodrow Wilson, rejected the League of Nations, and when President Harding saw that some sort of agreement or association of nations was necessary to prevent our becoming burdened with a mad race for the military supremacy he called a conference to discuss limitation of armament. But the same old crowd in the Senate have given warning that if it is anything like Wilson's plans it will be rejected.

The world is groaning under the situation, yet in order to gratify a petty jealousy the irreconcilables in the Senate deliberately sacrificed the world to humiliate a man who was working for the good of the human race. History, when written in fairness and candor will consign to infamy these petty politicians and will give to Woodrow Wilson the bright page to which he is entitled. In the years to come when the name of Woodrow Wilson stands out as one of the really great men of the world the fellows who thwarted his plans will have been forgotten or remembered only because of their perfidious work. Benedict Arnold is remembered in history, but only because of his great treason. These men may be remembered but it will not be a glorious memory.

It is said that Nero added while Rome burned, and it will be said in history that Lodge, Borah, Reed, et al., dallied and filibustered and objected to any plan of aid when the world was tried in the fiercest fire that it has ever experienced. After political prejudice has died away and people begin to look with impartiality and reason upon the happenings of the past few years, the record of the irreconcilables in the Senate will be a record of darkness and littleness that will surprise those who come after us and read of the events of this decade.

But the thing is done and there is no calling back the wheels of time. The next best thing to do is to make an honest effort to rectify the mistake.

of the past. Let Harding have the credit of the Association of Nations but make it something that will ally the unrest of the world. As a matter of fact it will have to take the essence of the League covenant, but let Harding have the honor if the thing can bring order out of world-wide chaos. The main idea is to have the business affairs of the world settled so that starvation of suffering can be wiped out.

We trust that no Democrat in the United States Senate will be petty enough to refuse to stand by any good thing that he president may be able to obtain from the present conference. We trust that none of them will be so partisan as to refuse to stand by and aid the President in securing the peace of the world and the rehabilitation of the stricken nations of the old world. The world is sick and needs a remedy, and there should be no needless disputes as to whom shall be honored for prescribing the remedy. What is needed is the remedy and when it is presented it should be accepted.

ROSEBUD.
We are closing a very successful season, as to work accomplished and number in attendance. The enrollment to date is near 300, which is far in advance of any past enrollment for the fall term. High school classes will be arranged for teachers and pupils just finishing the eighth grade work. A plan is being considered to offer a review course of three months to teachers preparing for examination. Further announcements will be made later if enough teachers are interested in such a course.

An examination will be required of pupils desiring to enter High School who have not a county diploma. This examination will be held on Monday the opening day of the term, beginning at 1 P. M.

I desire to call attention to the reports for the first quarter. Every parent should have a card showing the pupil's standing. If any one has not received a report he should ask the teacher of his child. We are adopting more stringent regulations for absences and tardies. Every day absent will mean a zero on all work and in a similar way a tardy mark will deduct from the pupil's grade. There are a few children who are habitually tardy this is an injury to them and a disturbance to the school. Parents owe it to their children to see that their meals are ready and chores finished in time for them to get to school. They can help their children to maintain higher grades by seeing that they are regular and punctual. Always expect and ask for grade cards at the close of every quarter.

S. H. MCGUIRE.
Principal.

THERE IS VIGOR IN RICH BLOOD

Pepto-Mangan in Liquid or Tablets—a Blood Builder

Vigor and strength have as their base rich red blood. Blood is rich when there are plenty of red corpuscles. They are the tiny red cells which swim in blood and give it its color. Without red corpuscles blood would be white. When over work or straining, or illness weakens the blood, it diminishes the number of red cells. Without a sufficient number of red cells the blood becomes watery the body weak. Vigor and strength fall off, so that physical pleasures of eating and sleeping and exercise lose all attraction. There is no zest in living.

After Gude's Pepto-Mangan has been taken for a while the blood becomes rich with red cells. They help to nourish the entire system. With good blood at work there is a great difference in living. Eating, sleeping and exercise are enjoyed. All druggists sell Gude's Pepto-Mangan. Advertisement.

ANNOUNCEMENT MORGAN COUNTY HIGH SCHOOL.
The second session of the Morgan County High School will open Monday, January 2. It is important to be present on the opening date. Arrangements are being made to provide room and board for all pupils. However, it will be an advantage, if those who want rooms will notify us before coming. Board and room will cost \$3.50 per week. No tuition will be charged county pupils.

We are closing a very successful season, as to work accomplished and number in attendance. The enrollment to date is near 300, which is far in advance of any past enrollment for the fall term. High school classes will be arranged for teachers and pupils just finishing the eighth grade work. A plan is being considered to offer a review course of three months to teachers preparing for examination. Further announcements will be made later if enough teachers are interested in such a course.

An examination will be required of pupils desiring to enter High School who have not a county diploma. This examination will be held on Monday the opening day of the term, beginning at 1 P. M.

I desire to call attention to the reports for the first quarter. Every parent should have a card showing the pupil's standing. If any one has not received a report he should ask the teacher of his child. We are adopting more stringent regulations for absences and tardies. Every day absent will mean a zero on all work and in a similar way a tardy mark will deduct from the pupil's grade. There are a few children who are habitually tardy this is an injury to them and a disturbance to the school. Parents owe it to their children to see that their meals are ready and chores finished in time for them to get to school. They can help their children to maintain higher grades by seeing that they are regular and punctual. Always expect and ask for grade cards at the close of every quarter.

How Many Objects in This Picture Begin With the Letter 'C'?
The above picture contains a number of visible objects beginning with the letter "C." Just take a good look at it—there are all sorts of "C" words. Nothing is hidden; you don't have to turn the picture upside down. Make a list of all the visible objects in the picture, the names of which begin with the letter "C." Have the whole family join in—see who can find the most. Fifteen splendid cash prizes will be awarded for the fifteen best lists submitted. The answer having the largest and nearest correct list of objects shown in the picture starting with the letter "C" will be awarded first prize; second best, second prize, etc.

Everybody Join In
The Louisville HERALD announces a most interesting and amusing puzzle game—a puzzle that's "different" and a game in which everyone from grandpa and grandma to the little folks can take part. It's really not a puzzle at all, because all of the objects have been made perfectly plain with no attempt to disguise them; it's just a plain test of your skill. Your ability to find "C" words determines the prize you win. Get the folks in your family busy. Give each of them pencil and paper and see who finds the most. We know you'll enjoy it, because everyone loves a puzzle.

Open To All—Costs Nothing To Try
The HERALD invites YOU, and your family, to join in this fascinating puzzle game. It doesn't make a speck of difference whether you are 6 or 60 years old. Here's your chance to have some dandy fun! Wait until you have tried our puzzle and you will say "GREAT! The most fun I've had in a long, long time." Write down the "C" words you have in mind RIGHT NOW! Then study the picture for MORE and when your list is made up send it to The Louisville HERALD and try for the big cash prizes.

Observe These Rules—
First—Any man, woman, boy or girl who is not in the employ of The Louisville Herald, or a member of an employee's family, may submit an answer. It costs nothing to try.
Second—All answers must be mailed by December 17, 1921, to Myles W. Neilson, Picture Puzzle Manager, Louisville Herald.
Third—Answers must be written on one side of the paper only and each "C" word numbered 1, 2, 3, 4, etc., as listed. Write your full name and address in the upper right-hand corner of each sheet. If you desire to use anything else, use a separate sheet.
Fourth—Only words found in the English dictionary will be counted. Do not use hyphenated, compound or obsolete words. Use either singular or plural. Where the singular is used to denote a "C" word, the plural can not be counted as another word, and vice versa.
Fifth—Words of the same spelling can be used only once, even though used to denote different objects. The same object can be named only once. However, any part of an object may also be named.
Sixth—The answer having the largest and nearest correct list of visible objects shown in the picture beginning with the letter "C" will be awarded first prize, etc. Neatness, style or handwriting will have no bearing on deciding the winners.
Seventh—Participants may co-operate in answering the puzzle, but only one prize will be awarded to any one household; nor will prizes be awarded to more than one of any group outside of the family.
Eighth—In the event of a tie for any prize offered, equal amounts will be awarded.
Ninth—Subscriptions, both new and renewal, by mail, carrier or news agent, will be accepted. However, in qualifying for the \$1,000 and other maximum awards, at least one new subscription must be sent in. A new subscriber is one who has not been receiving The Herald by carrier or mail since November 29.
Tenth—All new subscriptions will be carefully verified by the Puzzle Manager. Participants marking old subscriptions as new will forfeit the credit of such subscriptions in qualifying for the maximum awards offered.
Eleventh—All answers will receive the same consideration, regardless of whether or not subscriptions are sent in.
Twelfth—Three Louisville business men, having no connection with The Herald, will be selected to act as judges and decide the winners. Participants agree to accept the decision of these judges as final and conclusive.
Thirteenth—The judges will meet immediately following the close of the Picture Puzzle Game and announcement of the correct list of "C" words and winners will be published in The Herald just as quickly thereafter as possible.
Fourteenth—Any inquiries regarding the Puzzle Game must be either written or telephoned to the Puzzle Manager.
